(12 2022)

# Agenda

- Recap on Week 3 topic
- **Assignment Project Exam Help**  
Introduce Power BI – Components,  
Workflow, and Building Blocks  
<https://powcoder.com>
- **Add WeChat powcoder**  
Demo with Power BI – Power Query  
Editor & DAX

# An simple approach to build a Good Chart

# Refine to Impress

1. To make charts feel **neat** or **clean**, focus on design **structure** and **hierarchy**  
**Assignment Project Exam Help**
2. For charts that just make sense or **feel instantly understood**, focus on **design clarity**  
**<https://powcoder.com>**  
**Add WeChat powcoder**
3. To make charts that look **elegant** or **beautiful**, focus on **design simplicity**

# Refine to Persuade

1. Hone the **main idea**  
**Assignment Project Exam Help**
2. Make it **stand out**  
**<https://powcoder.com>**  
**Add WeChat powcoder**
3. **Adjust** what's around it

# Persuasion or Manipulation

# The Data Analytics Eco-system

Updated by Vincent Pang, Nov. 2021  
Prepared by Vincent Pang, Feb. 2021

Note: In-Memory Database (e.g. SAP Hana) is an alternative data model not shown here

# How Power BI Help With the Analytics Process

# ETL Framework for Data Methods

## 1. Extract

- Pulling data from original sources (e.g., SQL, CRM, flat files, Email, Web pages)
- Array of connector options

## 2. Transform

- Data cleaning (e.g., filtering rows, splitting columns, change data types and format, etc.)
- Data integration (e.g., adding lock-up keys, joining tables, aggregating data, etc.)
- Data enrichment (e.g., create calculated columns, dynamic tables, etc.)

## 3. Load

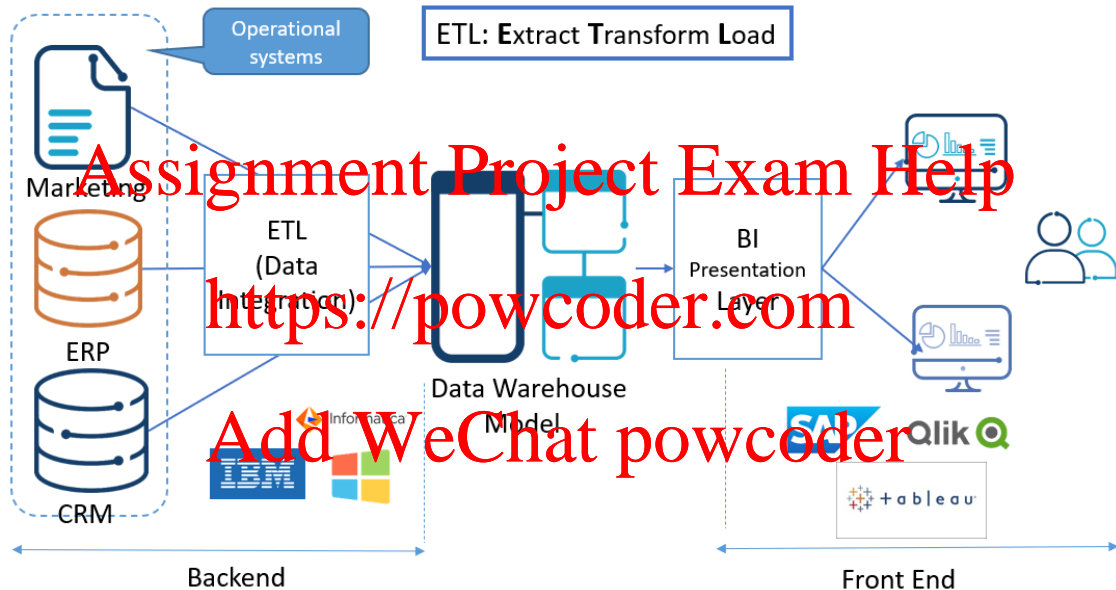

- Power Query loads extracted and transformed data into the Power BI interface

# ETL Framework for Data Methods

# What is Power BI?

- A collection of software services, apps, and connectors that work together to turn data into interactive insights.

- Access to all data, wherever it may live (e.g., Excel, cloud-based or on-premises data warehouses, Web page)
- Suitable for power users

# Power BI Component

- Power BI Desktop
- Power BI Service (Power BI.com)
- Power BI Mobile

(Source: Microsoft)

# Power BI Desktop

- An authoring tool used to create Power BI models and reports
- It enables you to:
  - Connect to data, including multiple data sources
  - Shape the data with queries that build insightful, compelling data models
  - Use the data models to create visualizations and reports

# Power BI Desktop – Power Query Editor

- Transform data into a reporting friendly format

- Remove and cleanse dirty data

- Merge and combine different data sources

- Automate

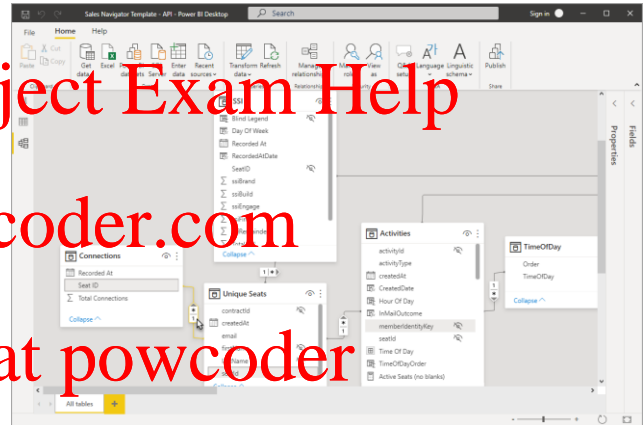

# Power BI Desktop – Data Modelling

- Creating relationship between tables or data sources

- Perform DAX (Data Analysis Expressions) calculation

- Create Hierarchies
- Categorize data

# Workflow in Power BI

1. Bring data into Power BI Desktop, and create a report.
2. Publish to the Power BI service, where you can create new visualizations or build dashboards.
3. Share dashboards with others, especially people who are on the go.
4. View and interact with shared dashboards and reports in Power BI Mobile apps.

# Building blocks of Power BI - Visualizations

- A **visualization** (sometimes also referred to as a **visual**) is a visual representation of data, like a chart, a color-coded map, or other interesting things you can create to represent your data visually.
- The goal of a visual is to present data in a way that provides context and insights

# Building blocks of Power BI – Datasets (1)

- A **dataset** is a collection of data that Power BI uses to create its visualizations.
- Dataset can be single table (e.g., Excel file) or a combination of many different sources.
- An important and enabling part of Power BI is its built-in **data connectors**.

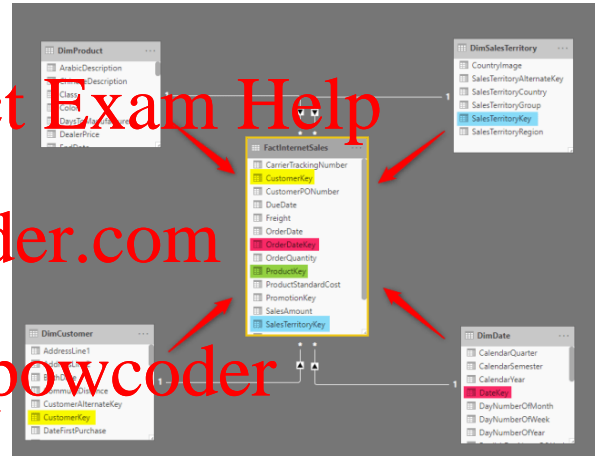

1	Year	Month	Month Name	Calendar Month	Births	Births Per Day	Births (Normalized)
2119	2004	1	January	1/1/2004	2,937	94.7	2842
2120	2004	2	February	2/1/2004	2,922	97.4	2921
2121	2004	3	March	3/1/2004	3,123	100.9	3027
2122	2004	4	April	4/1/2004	2,896	96.5	2896
2123	2004	5	May	5/1/2004	3,008	97.0	2911
2124	2004	6	June	6/1/2004	3,047	101.6	3047
2125	2004	7	July	7/1/2004	2,981	96.2	2885
2126	2004	8	August	8/1/2004	3,079	99.3	2980
2127	2004	9	September	9/1/2004	3,219	107.3	3219
2128	2004	10	October	10/1/2004	3,547	114.4	3433
2129	2004	11	November	11/1/2004	3,365	112.2	3365
2130	2004	12	December	12/1/2004	3,143	101.4	3042
2131	2005	1	January	1/1/2005	2,921	94.2	2827
2132	2005	2	February	2/1/2005	2,699	96.4	2692
2133	2005	3	March	3/1/2005	3,024	97.5	2926
2134	2005	4	April	4/1/2005	3,037	101.2	3037
2135	2005	5	May	5/1/2005	3,231	104.2	3127
2136	2005	6	June	6/1/2005	3,163	105.4	3163
2137	2005	7	July	7/1/2005	3,119	100.6	3018
2138	2005	8	August	8/1/2005	3,156	101.8	3054
2139	2005	9	September	9/1/2005	3,439	114.6	3439

# Building blocks of Power BI – Datasets (2)

- Power BI is designed to work with a common database structure that is called **snowflake schema**.

- A **fact table** contains events, transactions, sales records, etc. It **supports summarization**.

- A **dimension table** holds the contact information/attributes for each customer (e.g., who, what, where, when, how). You may have multiple dimension tables. It **supports filtering and grouping**.

# Building blocks of Power BI - Reports

- A **report** is a collection of visualizations that appear together on one or more pages.

- You can also create reports in the **Power BI service**.

- Reports let you create many visualizations, on multiple pages if necessary, and let you arrange those visualizations in whatever way best tells your story

# Building blocks of Power BI - Dashboards

- A Power BI **dashboard** is a collection of visuals from a single page that you can share with others.
- A dashboard must fit on a single page, often called a canvas.
- Users can interact with dashboards in the Power BI service or on mobile device.

# Building blocks of Power BI - Tiles

- A **tile** is a single visualization on a dashboard.
- When creating a dashboard in Power BI, you can move or arrange tiles however you want.
- When you're viewing, or consuming, a dashboard or report, you can interact with it, but you can't change the size of the tiles or their arrangement.
